Dalmatian Puppet

1. Take one sheet of computer paper and fold in thirds (fold each side inward). Take one open end and fold in half so ends meet.
2. Place paper on table. Fold the open end in half to meet the center fold. Flip paper over and fold open end in half to meet center fold. This forms a W. The open ends are now pockets for the thumb and fingers to move the mouth.

3. Cut dog's head. Color black spots, nose, and eyes as desired. Glue onto one side of folded paper with the mouth of dog hanging over the folded edge.
4. Cut fire hat and color red. The inner cut forms a thin flap. Fold the flap down to form fire hat and glue flap to back of puppet's head. Cut and add decoration to hat. Color tongue and add to bottom of mouth, letting it stick out.

Police Dog Puppet

Do the same as for the dalmatian puppet but use this head and color the hat in blue with a gold star.

Cut out a tongue and add it to the lower mouth so it hangs out.
